BJÖRN KAWECKI

Software development · Knowledge management

Berlin · post@bjoernkawecki.de · bjoernkawecki.de · github.com/bjkawecki

SUMMARY

I combine a humanities background with practical experience in software development. My focus is on structuring complex information, making knowledge accessible, and designing digital tools in a user-centered way.

AREAS OF EXPERTISE

Software Development & Operations
Develop, integrate, deploy, and operate applications.

Knowledge Management
Capture, structure, maintain, and make knowledge accessible.

Design & Interaction
Design clear interfaces and intuitive interactions.

Communication & Facilitation
Communicate complex content clearly, clarify requirements, and bring perspectives together.

WORK EXPERIENCE

Application Developer · Customer Support
synectic software & services gmbh
Remote 10/2025 – Present
- Implement features in existing applications and clarify requirements with users
- Support via phone and ticket system: analyze and resolve issues and implement client customizations

Full-Stack (Freelance)
